Subject: [External_Sender] License amendment application
Attachments: Mid Pacific Testing and Inspection License amendment request Revised 27Oct2015.pdf

Carol,

As a result of Janine's audit of our program today, I need to make a couple of changes to our amendment request. Attached is the revised letter. The new changes include;

1. Increasing our maximum allowed source values in the first part of item 6
2. A notation regarding a typographical error in our address in item 2

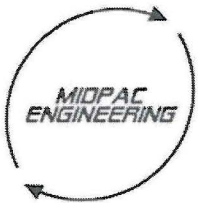

I apologize for the additional changes, feel free to contact me if you have questions or require additional information.

Thanks,

Jim Merriman

Revised 27Oct2015

US Nuclear Regulatory Commission
Region IV, Nuclear Materials Safety Branch B
611 Ryan Plaza Drive
Arlington, Texas 76011-4511

Dear Acting Health Physicist for Branch B Region IV,

Please amend License # **53-29044-01** to change our authorized use, and increase our possession limit to the below quantities:

In the current section 6 please amend the A & B Sources to

A - 9 millicuries per source and 108 millicuries total

B – 44 millicuries per source and 528 millicuries total

Add the following;

Nuclide	Radium-226
Form	Sealed Source (AEA Technology Model RAN.C1 Gammatron ModelGT-GHP or Radium Chemical Co. Drawing 21.94
Possession Limit	5.5 millicuries total. No single source to exceed the maximum activity specified in the certificate of registration issued by NRC.
Authorized Use	Seaman Nuclear Corporation Model C-300 portable gauging device for for measurement of soils and construction materials.

Additionally, we would like to change the company name on the license from Mid Pacific Testing & Inspection Services, Inc. to "Mid Pac Engineering" Note; Change of control form was sent to NRC 9/17/2015.

This is a change in company name only, there are no changes to personnel in charge, RSO, storage location, emergency plans, etc.

It was noted during our Audit by Janine Katanic that item number 2 of the license has a typographical error in the address. The address should read 94-547 Ukee' Street not Ukee'w street. The address in item number 10 is correct.

I apologize for these additional changes,
Feel Free to contact me if you have questions or require additional information.

Sincerely,
Mid Pacific Testing & Inspection Services, Inc.
