

United States Nuclear Regulatory Commission

Attn: Mr. Hector Rodriguez

GLTS Project Manager Office of Nuclear Material Safety and Safeguards

Sir:

Thanks for your time on the telephone to help me respond to your letter dated 8/31/15 and identified by "GL-700969". The letter was actual addressed to the previous owners of our company, Chris Kaye Plastics Corporation. Buddeez purchased Chris Kaye in 2007 and operated as American Plastics Group and Buddeez until we merged our two companies in 2014; we have consolidated all our operations into one company known as Buddeez Inc.

Your letter references an item that we have never seen or had possession of, to the best of our knowledge, (the static eliminator #P2021 manufactured by NRD LLC serial # 700969001). Please update the information in your files to include our current business name and the fact that we have no knowledge of the aforementioned device.

Thanks Sincerely,

Timothy Turner

Safety/Facility Manager

Buddeez Inc. 715 W. Park Rd.

Union MO 63084

Attachments: Chris Kaye Plastics Summary Report.PDF

Hector,

I was not able to find anything on the specific serial number that you gave me. I don't think that number is accurate since it doesn't fit into our systems at that time. I did, however find data on Chris Kaye Plastics and it is attached. It appears that there were two unreturned devices which would be devoid of Po-210 by now. If you have any questions, or need more information, please do not hesitate to contact me.
