**SUBJECT: RESPONSE TO NRC INSPECTION REPORT 030-38218/2015-001 AND
NOTICE OF VIOLATION**

Dear Dr. Humes:

On September 21, 2015, the U.S. Nuclear Regulatory Commission (NRC) cited Casper Medical Center, LLC, dba Mountain View Regional Hospital (formerly Central Wyoming Neurosurgery, LLC) for failure to: (1) establish the authority, duties, and responsibilities of the Radiation Safety Officer (RSO) in writing and have a written agreement wherein the RSO agrees to be responsible for implementing the radiation protection program; (2) follow license conditions with regard to the eating, drinking, and storage of food or drink in areas where licensed material was stored or used; and (3) conduct removable contamination surveys in radiopharmaceutical administration areas. Inspection Report 030-38218/2015-001 with enclosed Notice of Violation (ML15253A947) required you to respond in writing within 30 days. You responded by letter dated October 14, 2015 (ML15292A547) and provided a supplemental response in electronic mail dated October 30, 2015 (ML15313A322).

After reviewing the information you provided in your responses to the Notice of Violation, we have concluded that your completed and proposed actions appear to adequately address the regulatory noncompliances described in the Notice of Violation. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

S. Humes
