2015-0062

U.S. Nuclear Regulatory Commission
ATTN: Director, Office of Enforcement
Washington, D.C. 20555

**SUBJECT: Confirmation of Payment in Response to Notice of Violations dated
October 22, 2015; EA-14-230**

Dear Nuclear Regulatory Commission:

I am writing confirm payment of the civil penalty assessed in the October 22, 2015 letter entitled NOTICE OF VIOLATION AND PROPOSED CIVIL PENALTY - \$3500 (NUCLEAR REGULATORY COMMISSION INSPECTION REPORT 50-128/2015-202 AND OFFICE OF INVESTIGATIONS REPORT NO. 4-2014-010, TEXAS A&M NUCLEAR SCIENCE CENTER).

In my previous letter dated October 8, 2015, I acknowledged the accuracy of the OI report and provided a discussion of notable changes to the NSC culture, organization and procedures. I affirm that the events from May 2013 (and related follow-on events) were serious and significant corrective actions have been and are continuing to be implemented since the events occurred.

Payment of the civil penalty was sent to the Nuclear Regulatory Commission via certified mail on October 23, 2015 with the appropriate forms to enable payment by credit card.

We are pleased to have this situation finally resolved. As we look forward to the future, I am eager move forward in a positive direction.

Best Regards,

Dr. Sean M. McDeavitt
Director, TEES Nuclear Science Center
