RE: Amendment of NRC License **21-18585-01** - McLaren Medical Center Bay Region

Dear Sir/Madam:

We would like to amend our current NRC license to reflect the following changes:

1. Please remove "Varian Model VariSource 200t" from authorized use under 10 CFR 35.600. This treatment unit was updated to the Varian Model Varisource iX on September 25, 2015 and can no longer be operated under the VariSource 200t conditions.
2. Please add **Larry N. Langrill, M.S.**, as an Authorized Medical Physicist (AMP) for Iridium-192 in a High Dose Rate Afterloader for calibrations, spot-checks, and training. He is currently listed as an AMP for this use on **NRC License No. 21-01549-02**.

If you have any questions regarding this matter, please contact our Medical Physicist, Matthew Buczek, M.S. at 989-667-6675 or matthew.buczek@mclaren.org.

Sincerely,

Ellen Talbott
Vice President Patient Care Services
McLaren Bay Region
