

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 1, 2015

Mr. Richard Ratliff, Director
Radiation Program
Texas Department of State Health Services
P.O. Box 149347, MC 1987
Austin, TX 78714-9347

Dear Mr. Ratliff:

We have reviewed the proposed revisions to the Texas regulations for Control of Radiation, Title 25, Texas Administrative Code (TAC), received by our office on October 22, 2015. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the four amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on December 1, 2015.

As a result of our review, we have three comments related to compatibility and one comment that is not related to compatibility but should be addressed. These have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Texas regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Texas regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Texas regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

Additionally, please note that NRC has previously issued certain Security Orders to fourteen Texas DSHS licensees. We have not listed the names of the licensees in this letter because that information is Official Use Only and cannot be made publicly available. Because the NRC-issued Orders are still legally binding, they must be rescinded by NRC concurrent with Texas' promulgation of final regulations. Accordingly, close coordination is needed between NRC and your office to ensure there are no conflicts, duplications, or gaps regarding the security-related requirements for these licensees. Please contact Adelaide Giantelli, Chief, Source Management and Protection Branch, NMSS (Adelaide.Giantelli@nrc.gov) for information regarding the affected Texas licensees and for coordination with rescission of the NRC-issued Orders for these licensees after Texas' promulgation and NRC's review of the final Texas regulations.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley State Regulation Review Coordinator, at (610) 337-6942 (Michelle.Beardsley@nrc.gov) or Lizette Roldán-Otero at (817) 200-1596 (Lizette.Roldan@nrc.gov).

Sincerely,

/RA/

CEinberg for PHenderson

Pamela J. Henderson, Deputy Director
Division of Material Safety, State, Tribal
and Rulemaking Programs
Office of Nuclear Material Safety
and Safeguards
