In the Matter of  
Florida Power & Light Company  
(Turkey Point Units 6 and 7)  
Docket Nos. 52-040 and 52-041

Dear Administrative Judges:

Pursuant to the Licensing Board's Memorandum and Order dated March 30, 2011, as modified by the Licensing Board's Notice dated September 12, 2012, the Staff is providing the Licensing Board and the parties an index identifying additions to the Hearing File required to be disclosed by the Staff pursuant to 10 C.F.R. § 2.336(d). The index contains the ADAMS accession number, date, and title of each listed document so as to make each document readily retrievable from the agency's website, [www.nrc.gov](http://www.nrc.gov), using the ADAMS "Find" function. Additionally, the Staff will add the documents identified in the index to the agency's Electronic Hearing Docket ("EHD") associated with this proceeding entitled "Turkey Point Hearing File." Also attached, as required by 10 C.F.R. § 2.336(c), is the Affidavit of Manny Comar.

In accordance with the Licensing Board's March 30, 2011, Memorandum and Order, relieving all parties from the obligation of producing privilege logs, as otherwise required by 10 C.F.R. §§ 2.336(a)(3) and 2.336(b)(5), the Staff is not now producing privilege logs. In accordance with the March 30, 2011, Order, however, the Staff is required to produce a log of documents withheld as containing proprietary information. In preparing the enclosed Hearing File Index update, the Staff identified no documents for inclusion on the log of documents withheld as containing proprietary information. Accordingly, no privilege log is attached. As directed by the Licensing Board, the Staff is preserving and maintaining all privileged documents during the pendency of this proceeding.

In accordance with the Licensing Board's March 5, 2014, Order, the Staff, in Hearing File Update No. 41, dated September 11, 2014, and Hearing File Update No. 36, dated April 10, 2014, provided best-estimate schedules for issuing the final Safety Evaluation Report ("SER") and final Environmental Impact Statement ("EIS"), respectively. On October 27, 2015, the Staff informed the Applicant of changes to these schedules. See Letter from F. M. Akstulewicz, NRC, to M. K. Nazar, FPL (Staff October 2015 Letter) (ADAMS Accession No. ML15286A109) (attached as Attachment 3 - FPL Scheduling Letter).

In regard to the EIS, the Staff now projects that it will issue the final EIS in October 2016, rather than February 2016. As the Staff October 2015 Letter indicates, approximately 11,000 comment letters were submitted during the public comment period on the draft EIS, including letters from members of the public and interested stakeholders. In particular, the NRC received a number of substantive and complex comments from Federal, State, and local governmental agencies. As further indicated in the October 2015 letter, the Staff projects that at least an additional seven months will be needed to address these comments and complete the final EIS. Accordingly, the Staff revised the environmental review schedule to indicate that the final EIS will be completed in October 2016. See Staff October 2015 Letter, Enclosure 1. The Staff, however, will look for opportunities to accelerate the completion of the environmental review.

In regard to the SER, the previous schedule, which provided for the issuance of the Advanced Final SER in January 2016 and the Final SER in October 2016, is no longer viable. As indicated in the October 2015 Staff Letter, the Staff is engaging with the AP1000 licensees and applicants, as well as Westinghouse, to resolve several design issues. However, until there is greater clarity on the timetable for resolving these issues, the Staff cannot provide a definite date for the completion of the Turkey Point Units 6 and 7 COL safety review. Until then, the Staff will list the final safety review milestone as "under review."

The Staff will promptly inform the Board when it can provide a definite schedule for issuing the final SER, or if the Staff determines that it can accelerate the schedule for issuing the final EIS.

Respectfully submitted,
