## General Comment

Please reference this link on the dangers of prolonged exposure to low levels of radiation:

<http://www.washingtonsblog.com/2015/10/world-health-organization-prolonged-exposure-to-even-low-level-radiation-increases-the-risk-of-dying-from-cancer.html>

Government policy is evolving in the wrong direction. Instead of increasing safeguards and acknowledging the danger of nuclear power, government is reducing safeguards and attempting to hide the dangers of radiation.
