

Pilot Early UIN Project

Calvin Morrow
SNC ITAAC Supervisor

Background

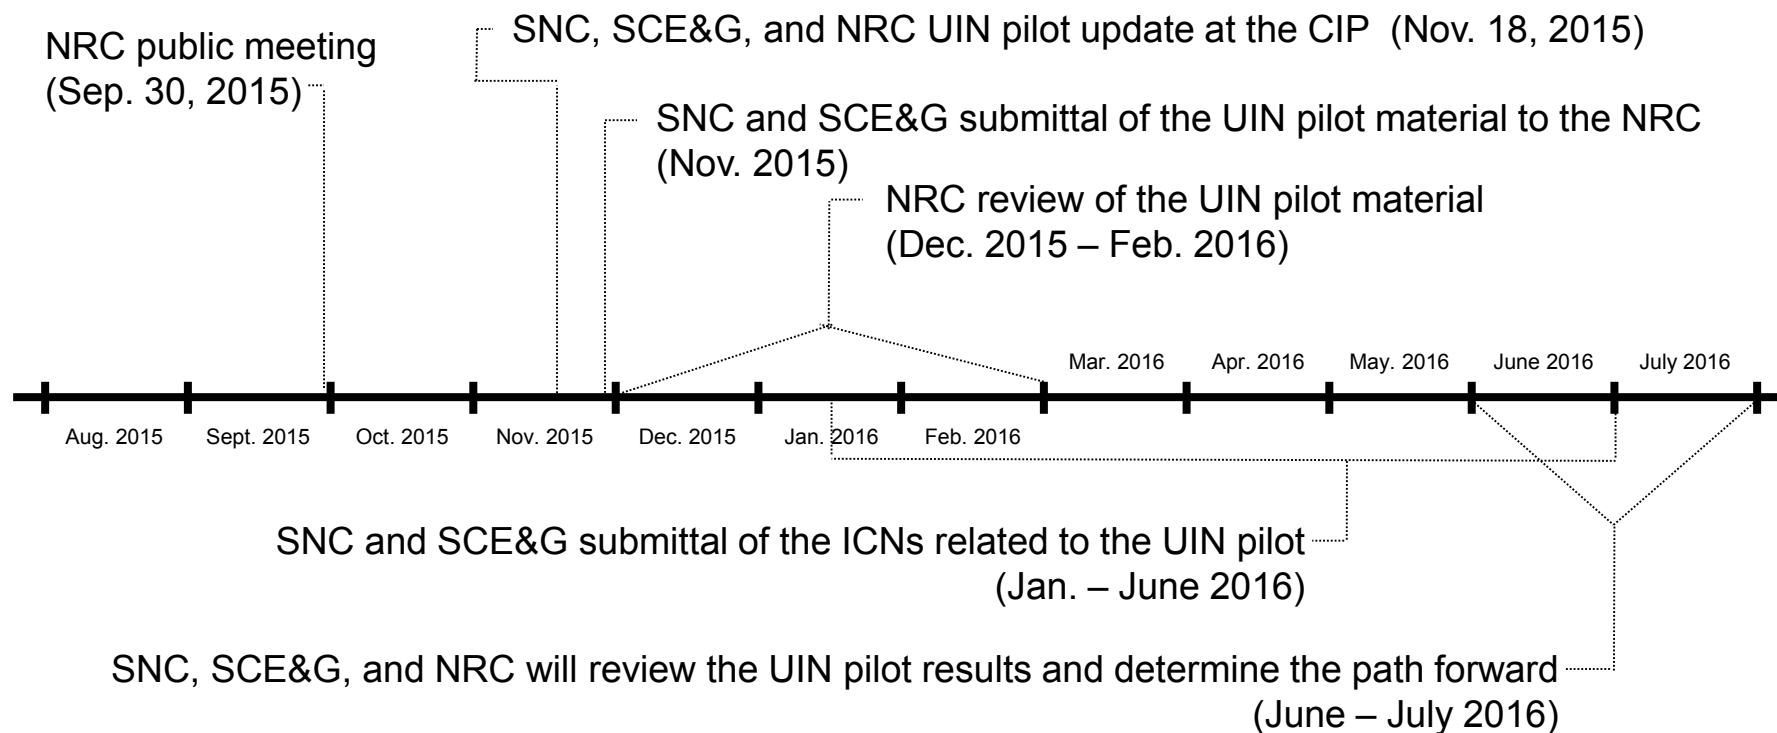

- SNC identified a potential opportunity to submit the UIN early
- SCANA and SNC discussed the potential benefits and risks of such an effort, and approached the NRC about testing the benefit of an early UIN submittal
- NRC, SNC and SCANA agreed that a pilot would be best path forward to determine the benefit of early UIN Submittals

Goals of the Pilot Early UIN Submittal

- Determine if and how much efficiency is gained in the NRC Staff's UIN and ICN review process by an early UIN submittal
- Exercise the program the NRC will put into place to review UINs and subsequent ICNs
- Exercise the Licensees procedures/programs for development of the UIN
- Determine how changes will be tracked internally between the UIN and subsequent ICN submittal

UIN Pilot Timeline

- 19 ITAAC identified for the Pilot
