## General Comment

PLEASE DO NOT eliminate the 'Linear No-Threshold' (LNT) basis of radiation protection that the US has used for decades and replace it with the 'radiation hormesis' theory - which holds that low doses of radioactivity are good for people.

If anything our government standards of regulating radiation need to be strengthened. PLEASE DO NOT get rid of LNT. PLEASE. The health of the people and children are dependent upon regulations like LNT basis of radiation protection. Thank you for for voting no to radiation hormesis theory.
