Subject: [External_Sender] Nuclear waste

Dear Ms. Gallagher,

As a Citizen living close to Lake Huron in Port Huron Michigan, I would like be assured that our government has a zero tolerance policy, when it comes to radiation levels in drinking water and fresh water lakes such as the Great Lakes.

In support of the LNT model I advocate:

There should be **NO** industrially acceptable level of radiation in regards to leakage of nuclear substance storage facilities.

The ALARA policy is the only possibly safe method :

The only acceptable level should be **ZERO**. Zero contamination.

Thank you

Concerned citizen
