Subject: Termination of the Specific License

Discussion: I called Ms. Spalletta, because I noticed that the last inspection stated that she had no specifically licensed material. Also, she did not have what type of gas chromatographs on the license. I asked her what type she had and she stated they had HP models. The specific license only allows Varian Model 3000 series. She said that she believed they were under a general license. We discussed 10 CFR 30.36(g) and recommended that they terminate the license instead of renewing it. She said she would verify her gas chromatographs and send in a NRC form 314 for license termination.

Action Required: Licensee expected to submit a termination request.
