RE: Proof of Destruction

Dear Mr. Rodriguez-Luccioni:

In response to a letter from your Agency dated October 30, 2015, I submit the following information. In May, 2009, the City of Meriden WPCF was notified by the State of Connecticut Department of Environmental Protection, Bureau of Air Management, Division of Radiation, that we had a licensed device located on our premises that required periodic testing. The City no longer utilizes the unit, so I sent it back to the manufacturer of the unit in question, SRI, Incorporated, in Las Vegas, Nevada for proper disposal. Attached is a copy of the Disposal Certificate from SRI for the unit.

If you have any concerns or need any additional information, please do not hesitate to contact me directly.

Sincerely,

Francis Russo
Manager
