Re: Re-submittal of response to NRC request for additional information (RAI) dated August 13, 2015, for groundwater for the Western Nuclear Incorporated Site in Jeffery City, Wyoming. (Radioactive Materials License No. SUA-56).

Dear Mr. Orlando:

On November 5, 2015, Western Nuclear Incorporated (WNI) submitted a technical memorandum providing responses to NRC's August 13, 2015 request for additional information (RAI) regarding WNI's for license termination at the Split Rock Site. Via an e-mail from NRC dated November 17, 2015, NRC identified inconsistencies between the hard copy and electronic version of the November 5 submittal and requested clarification.

WNI has determined that there were errors in assembly of the submittal by WNI's contractor. Please find enclosed re-submittal of the technical memorandum responses to the NRC RAIs including two hard copies and a compact disc containing a digital copy of the submittal.
