RE: Material License Amendments, License No. 13-32711-01

Dear Licensing Administrator,

I am writing to request amendment to the Materials License 13-32711-01 for OmniSource Corporation to update the responsible Radiation Safety Officer (RSO). The previous RSO, Nicole Wiley, would be removed and replaced with David Centeno moving forward. In addition, OmniSource is no longer in the possession of the Thermo Gamma Metrics Model CB Omni unit previously located at 2205 South Holt Road, Indianapolis, Indiana (Conditions No. 10). As these sources were removed from the site on June 11, 2015 and are now in the possession of Gamma-Tech, LLC, OmniSource is requesting that they be removed from the license. OmniSource is still and will continue to operate the registered sources located at 3601 Maumee Avenue, Fort Wayne, Indiana, as described in the Materials License (13-32711-01). Please review the information provided below:

Tammy,

This is a response to a request for additional information for C/N 588500. Attached is the 665 for this response.

I will be mailing the action to you – hopefully next week.

Mr. Null,

It was a pleasure speaking with you the other day. As requested, I have signed off on the Delegation of Authority (attached) and I have made the following additions and clarifications to the cover letter (also attached):

- Upper Management signature provided
- Clear statement as to our intended request to remove the Holt Road Sources from the license
- Identification of source manufacturers, serial numbers, and model numbers

I was also hoping that you might be able to shed some light on the following invoice related question...I included a recent invoice that was received from the NRC showing an amount due of \$8,000 for coverage from 10-1-2016 through 9-30-2016. Do you know if this total amount due is dependent on the number of sources (or facility locations) related to the license? If so, can we get a revised invoice reflecting the actual amount owed since the sources at Holt Road were removed in June 2015? Either way, any direction here would be helpful and most appreciated.

If you have any questions or would require any additional information from me, please let me know. Thank You.

Sincerely,
Dave Centeno
