---

License No. 07-14850-01

Docket No. 03007565

Control No. 589255

Good afternoon Adam,

I am working on the amendment for BayHealth to add Zhiqiu Li, Ph.D. as an AMP. In order to complete the review I will need some additional information. Specifically,

1. A copy of the Vantage Oncology at San Bernadino license (7260-36) showing Marc Morcos as an AMP.
2. A copy of the Weill Cornell Medical College license (75-2960-04) listing Jenghwa Chang as an AMP. If the Cornell license is a broad scope license, I will also need a copy of the permit issued by the RSC authorizing Mr. Chang as an AMP.
3. 10 CFR 35.51(b)(1) states that the training and experience must be conducted in clinical radiation facilities that provide high energy, external beam therapy (photons and electrons with energies greater than or equal to 1 million electron volts). Neither of the 313A(AMP) address the training and experience in the area of external beam.

As soon as you are able to get the additional information to me, I will continue with the review. You may scan and e-mail the documents directly to me. Also, please let me know that you received this e-mail.

Thanks in advance.
