Worldwide Specialty Lamp
ATTN: Charlotte Groves
Office Administrator
6759 Oak Ridge Commerce Way SW
Austell, GA 30168

SUBJECT: WORLDWIDE SPECIALTY LAMP, VOIDANCE OF LICENSE AMENDMENT
APPLICATION

Dear Ms. Groves:

This letter refers to your application dated September 3, 2015, which requested a license amendment to add various models of lamps manufactured by UNILAM Co., Ltd. to your license.

The U.S. Nuclear Regulatory Commission (NRC) sent you a letter dated September 28, 2015, which requested that you provide additional information concerning your application within 30 calendar days of the date of the letter (i.e., by October 28, 2015)(ML15266A007); I also contacted you several times via telephone and email during the week of December 7, 2015 concerning your responses to this letter. In your email dated December 10, 2015, you provided responses to items 1 through 3 in the NRC's letter dated September 28, 2015; however, as of December 14, 2015, you have not provided the information requested in item 4 of this letter concerning the radiation levels emitted by the lamps and the method of measurement.

Because you have not provided the additional information required to complete the requested action within the stated time period, we have voided your application. This action is taken without prejudice to the resubmission of your request; therefore, your application will be re-opened once the NRC receives a complete response to our request for additional information.

In accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions, please contact me at (301)-415-5608, or by electronic mail at Eric.Reber@nrc.gov.

Sincerely,

/RA/
