SUBJECT: ISSUANCE OF AMENDMENT NO. 68 APPROVING LICENSE AMENDMENT  
REQUEST 15-07 FOR A REVISION TO THE PHYSICAL SECURITY PLAN FOR  
THE URENCO USA SITE (COST ACCOUNTABILITY CODE NO. L34338)

Dear Ms. Johnson:

By letter dated October 2, 2015, Louisiana Energy Services (LES), LLC dba URENCO USA (UUSA) requested U.S. Nuclear Regulatory Commission (NRC) review and approval of changes to their Physical Security Plan (PSP) (Agencywide Document Access and Management System [ADAMS] Accession No. ML15313A208). UUSA stated that the above new PSP would replace existing licensing basis documents listed in its materials license SNM-2010, License Condition 10(d).

The NRC security staff has reviewed the changes contained in the written plan and found them acceptable. However, these changes are subject to inspection during the next physical security inspection. Therefore, LAR-15-07 is approved, Amendment No. 68 is being issued to license SNM-2010, and the Cost Accountability Code No. L34338 associated with this review will be closed.

As a result of the amendment approval, License Condition 10(d) within LES materials license SNM-2010 has been modified as follows:

10(d). Physical Security Plan dated December 12, 2003, as revised by letters dated May 12, 2004; July 30, 2004; December 10, 2004; January 12, 2005; February 12, 2008; August 11, 2008; May 1, 2009; July 16, 2009, February 5, 2010, September 20, 2010, and October 2, 2015.

Enclosed is Amendment No. 68 to SNM-2010 reflecting the revisions approved under this request.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and the enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
