General Comment

I do not support expanding nuclear energy in Illinois. We are still learning of the long-term effects of chronic exposure to radiation and do not feel comfortable living in a state that allows exposure to the community. I honestly believe Illinois will see heightened levels of cancer if we allow communities to experience low levels of radiation. This is a terrible rule imposed by the NRC and for the sake of our health, it should be rejected immediately. Please do not risk the lives of people living in Illinois for the sake of profit.
