Memo: Request to add Richard Smith as Radiation Safety Officer

Memo To: Toye L. Simmons, Material Licensing Branch; U.S Nuclear Regulatory Commission

From: Shelby Anderson, Director Drug Metabolism Services

The role of Radiation Safety Officer (RSO) and all the responsibilities associated with the position are being transferred from Shane Lowery to Richard Smith (officially transferred November 4, 2015). An amendment reflecting this change has been submitted to the NRC dated October 22, 2015. Please add Richard Smith as the new Radiation Safety Officer for Q Squared Solutions BioSciences, LLC.

Memo: Delegation of Authority

Memo To: Richard Smith, Radiation Safety Officer

From: Shelby Anderson, Director Drug Metabolism Services

You, Richard Smith, have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety: You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend 2 to 4 hours per week conducting radiation protection activities.
