NUCLEAR REGULATORY COMMISSION**

REGION I
2100 RENAISSANCE BLVD., SUITE 100
KING OF PRUSSIA, PA 19406-2713

November 23, 2015

Mr. Eric A. Larson
Site Vice President
FirstEnergy Nuclear Generation, LLC
Beaver Valley Power Station
Mail Stop A-BV-SEB1
P.O. Box 4, Route 168
Shippingport, PA 15077-0004

**SUBJECT: BEAVER VALLEY POWER STATION, UNIT 2
RESPONSE TO A REQUEST FOR INFORMATION
CONCERNING LICENSED OPERATOR FITNESS-FOR-DUTY-TEST**

Dear Mr. Larson:

The U.S. Nuclear Regulatory Commission (NRC) has received your letter dated October 30, 2015 (L-15-329), in response to our letter dated October 5, 2015. Your response adequately addressed our questions. Based on the fact that the individual's blood alcohol level was below that which would constitute a regulatory concern, and considering FENOC's response to this issue, we plan no further actions in this matter.

Also, we have reviewed your request and the material in accordance with the requirements of 10 CFR 2.390(b)(1)(ii) and, on the basis of your statements, have determined that the submitted information sought to be withheld contains personal information, the disclosure of which would be an unwarranted invasion of privacy. Therefore, the enclosure of your letter will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(1)(ii) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," your letter without the enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). Withholding the document from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future if, for example, the scope of a Freedom of Information Act request includes the operator's information. In all review situations, if the NRC makes a determination adverse to the above, the operator will be notified in advance of any public disclosure.

Eric A. Larson
