

North Carolina Responses to the Letters dated May 13th and August 19th
from the NRC commenting on adopted and proposed NC rules

The NRC commented on rules adopted by the State of North Carolina in October 2013 in a letter dated May 13th, 2014. During this time the state was in the process of addressing rule making activities required by RATS IDs 2011-1 to 2012-4, and had submitted these proposed rules to NRC for comment. The NRC provided comments to the state on these proposed rules in a letter dated August 18th, 2014.

The comments from both NRC letters are provided in the table, below, in the order these comments appear in the attachments in each letter. Please note the reference for each comment. The date next to the abbreviation (Ref.) in the column headed "NRC Citation 10 CFR ..." refers to the date of the NRC letter, and the item number references the item number of the specific comment listed in the table to each letter noted above. The text of each NRC comment is provided in the table for convenience.

Please note that there has been a change in how rules must be written since the previous rules were adopted by the state and the previous rule submission to NRC. In February, 2015, the agency was informed that North Carolina General Statute 150B prohibits a state rule from repeating the content of an existing rule or regulation. Accordingly, all of the rules addressed in RATS IDs 2011-1 to 2012-4 have been rewritten to this new standard using incorporation by reference.

30.34(a), (b), (h) Ref. 5/13/14 Item 1	.0338	2001-1 H&S, C	Terms and conditions of licenses North Carolina has an incorrect reference in 11.0338(c). The reference should be "The notification in Paragraph (b) of this rule shall indicate." North Carolina deleted the equivalent provision to 10 CFR 30.34(a) and (b). These provisions are Compatibility Category C and the essential objectives of 10 CFR 30.34 (a) and (b) need to be incorporated into 11.0338. North Carolina needs to make the above changes in order to meet the Category H&S designation assigned to 10 CFR 30.34(h) and the Compatibility Category C designation assigned to 10 CFR 30.34(a) and (b).	Incorporated 10 CFR 30.34(a) – (d) and (e)(2) – (j)(4) by reference in 10A NCAC 15 .0338.
31.5 Ref. 5/13/14 Item 2	.0309	2001-1 2007-2 2007-3 2012-1 C	Certain detecting, measuring, gauging, or controlling devices and certain devices for producing light or an ionized atmosphere North Carolina lists an incorrect reference in 11.0309(b)(2). The reference should be changed to "Subparagraph (c)(9) of this Rule." North Carolina needs to delete "except that tests for leakage or contamination may be performed by the general licensee using leak test kits provided and analyzed by a specific licensee who is authorized to provide leak test kit services;" from 11.0309(c)(3)(A). North Carolina needs to remove "or dispose of" and "by export as provided by (c)(7) of this Rule, or by transfer" from 11.0309(c)(9). North Carolina needs to make the above changes in order to meet the Compatibility Category C designation assigned to 10 CFR 31.5.	Incorporated 10 CFR 31.5 by reference in 10A NCAC 15 .0309
