Good Day Latischa,
We do not presently have any equipment which is configured with Energy Compensation Sources. However, if we decide to upgrade our equipment and purchase same, I will amend our license before taking delivery. I would need to know the model number before requesting it on the license.
Thanks for the information.

Mr. Doggett,

We wanted to inform you that we noticed in your application on Page 34, your procedures addressed **Energy Compensation Sources (ECs)**. These EC sources were not listed on your radioactive material list and **were not** listed on your new license.

You may submit an amendment request with a list of the EC source(s) you want added to your license.

Thanks,

Latischa
