May 15, 2015

Ms. Wendy Duvall
Chief Executive Officer
Barton County Memorial Hospital
29 NW 1st Ln.
Lamar, Missouri 64759

Dear Ms. Duvall:

This letter is to notify you and the Barton County Hospital that Diana Showalter has conveyed to me her desire and intent to retire November 30, 2015, approximately 7 months from now.

While there is a part of me that would like to continue I must be realistic in that the business revenues that we have been operating with over the past few years have made it difficult. So please accept this letter as my formal notice that we wish to terminate our service on the date of Diana's last day, November 30, 2015.

I certainly cannot overstate how grateful Kay and I have been over the years to have served the Barton County Hospital and good people of the region. And what a pleasure it has been to have been represented by Diana.

I appreciate the fact that Diana has given notice well in advance to permit us time to take the necessary steps for us to do what we can to make our termination and your transition to a new service provider as easy and simple as possible. There is also plenty of time for you to make application and receive an Institutional NRC Material License if necessary. I will be glad to offer advice as to how to pursue this if you wish.

We say thanks to the Barton County Hospital for permitting us to provide nuclear imaging services these many years.

Respectfully Submitted

Del and Kay Roberts
Ameritech Medical Services

Frank,

Please find attached the cancellation notice you requested. Ameritech's last day of service is November 30th. Please let me know if you need any additional information?

Bill
