Subject: [External_Sender] RE: Bridgeline: TN-RAM CoC 9233

Norma and Veronica,

TN again extends our appreciation for this opportunity for clarification on the proposed CoC for the TN-RAM.

In our review of the CoC we see an editorial correction that does need to be made. Please delete the words "weighted average" as shown below:

$$\sum_i \frac{S_i(E)}{\text{Activity Limit}_i(E)} \leq 1$$

Where E is the ~~weighted average~~ energy of the gamma emitter, $S_i(E)$ is the source strength of the gamma emitter, and $\text{Activity Limit}_i(E)$ is the limit in gammas per second as a function of energy. Limits can be found in the following table.

The attendees on this call were:

1. Prakash Narayanan
2. Jibu Abraham, Design Project Engineer
3. Rick Miglorie, Nuclear Analyst, Criticality and Shielding
4. Glenn Mathues, Licensing Engineer for Transportation

Regards,

Glenn

Glenn Mathues
