Participant(s) Name/Title: William E. Stenger, Director of Geotechnical Services and RSO

NRC Representative Name/Title: Scott Wilson/ RI Health Physicist

Discussion: Mr. Stenger was called to notify him that a review of the subject license by NRC staff identified an error. The error was noted in the "Conditions" section of the license, where during and administrative review NRC staff identified that a necessary license Condition had been inadvertently omitted during the previous amendment. Condition No. 18 of the license has been revised to reflect current NRC licensing guidance. Specifically, Condition No. 18 now states special requirements for the use of portable moisture and density gauges that allow for the source to be lowered to a depth greater than three feet from the surface.

The corrected copy of the license will be sent to you via US Postal Service.

Mr. Stenger stated that he understood.
