NO. 574723

Dear Mr. Stenger:

Enclosed is the Corrected Copy of Amendment No. 16 for License No. 37-17717-02. During an administrative review of your license we identified that we had inadvertently omitted a necessary license Condition during the previous amendment. As discussed with you during a telephone conversation between you and Scott Wilson of this office on November 30, 2015, Condition No. 18 of your license has been changed to reflect current NRC licensing guidance. Specifically, Condition No. 18 states special requirements for the use of portable moisture and density gauges that allow for the source to be lowered to a depth greater than three feet from the surface. Please review the revised license Condition and ensure that you understand the requirements. If you have any questions, please contact Scott Wilson at 610-337-5136. We apologize for any inconvenience this may have caused.

Sincerely,

Original signed by Blake Welling
