**RE: Increase in Bond Amount for Cameco Resources Mine Permit No. 633**

Dear Mr. Garoutte;

The information presented in the 2014-2015 Annual Report for Permit No.633 has been reviewed by the Land Quality District III staff, and the Annual Inspection required by W.S. §35-11-411(c) has been conducted on July 28, 29, and 30, 2015.

In accordance with W.S. §35-11-411(d), the bond amount is set at \$212,675,100. This represents an increase of \$422,100 over the current required amount \$212,253,000. Please contact Ms. Carol Bilbrough, at (307) 777-6772 for information on how to increase the bond.

*Please be advised that bonds, whether surety or self-bonds, must be submitted on one sheet, back-to-back. In addition, the original, signed certification of signatory authority for a principal must contain sufficient indicia of proof of such authority. In many cases, this will be the relevant portions of by-laws (for example, the first page showing whose by-laws they are, the page or pages addressing signatory authority and the last page). In other cases, such authority is apparent on the face of the certification itself. A sample of such an instance is enclosed. The corrected bond should be submitted to LQD within forty-five days of your receipt of this letter, care of Ms. Bilbrough.*

This bond amount is based only on an estimate of the cost of the state performing reclamation in the event of bond forfeiture. If this estimate proves to be less than the amount required, the Department will bring suit to recover the additional cost as allowed under W.S. §35-11-422.

If you have any questions regarding the bond amount, please contact Miles Bennett at the Sheridan District Office.

Sincerely,

Todd Parfitt  
Director
