SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2014-050)

Dear Mr. Cortopassi:

This refers to an investigation conducted by the U.S. Nuclear Regulatory Commission's (NRC's) Office of Investigations regarding activities at the Fort Calhoun Station. The Office of Investigations initiated the investigation to determine whether personnel at the Fort Calhoun Station, Blair, Nebraska, and/or Omaha Public Power District, Omaha, Nebraska, willfully falsified purchasing contract documents by replacing the name of the actual contracting specialist with the name of another individual, in order to conceal the fact that the original specialist had performed the actual contracting.

Based on the evidence developed during the investigation, the allegation that personnel at Fort Calhoun Station or Omaha Public Power District willfully falsified purchasing contract documents by replacing the name of the actual contracting specialist with the name of another individual in order to conceal the fact that the original specialist had performed the actual contracting, was not substantiated. The NRC plans no further action related to the willful aspect of this allegation and considers this investigation closed.

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, Requests for Records. Information is accessible from the NRC's website at <http://www.nrc.gov/reading-rm/foia/foia-request.html#how>.
