Dear Mr. DeLaBarre

Enclosed are two applications, dated November 9, 2015, received by the U.S. Nuclear Regulatory Commission (NRC) from Eastern Technologies, Inc., requesting Amendment No. 03 to license IW016 and Amendment No. 02 to license XW016 for the import and export of radioactive waste from/to Mexico.

The purpose of these amendments is to extend the date of expiration from December 31, 2015 to December 31, 2020.

There are no changes to the terms and conditions of the existing licenses being requested; therefore, our office is processing these as minor amendments. The NRC intends to issue the licenses after the required 30-day review period.

Sincerely,

A handwritten signature in red ink that reads "Andrea R. Jones".
