Trojan ISFSI
Docket No. 72-017
License No. SNM-2509

Dear Sir or Madam:

The Bonneville Power Administration (BPA) entered into a contract in 1970 with the Eugene Water and Electric Board (EWEB) regarding EWEB's thirty percent ownership share of the Trojan Nuclear Power Plant (Trojan). Under this agreement, BPA provides the funding for EWEB's share of Trojan costs and in turn received EWEB's share of Trojan's power. This agreement remains in place until its termination at the end of all decommissioning activities. Under this agreement, BPA has a contractual commitment to pay any decommissioning costs attributable to EWEB for both the Trojan Nuclear Plant and the Independent Spent Fuel Storage Installation. The Trojan costs are included in BPA's costs which are required by law to be recovered by BPA from its ratepayers. The funding is through the BPA Fund.

If you have any questions concerning this correspondence, please contact Dana Sandlin at (509) 372-5756.

Sincerely,

A handwritten signature in black ink, appearing to read "Cherie Sonoda", is written over a faint, dotted grid background.

Cherie Sonoda, Nuclear Supervisor
