VIA CERTIFIED RETURN RECEIPT

Mr. Hector Rodriguez-Luccioni
GLTS Project Manager
U.S. Nuclear Regulatory Commission
Office of Nuclear Material Safety and Safeguards
Washington, DC 20555-0001

Re: GL-29420 (U.S. Time Corporation) and Gl-21239 (Timex Corporation)

Dear Mr. Rodriguez-Luccioni:

Per our conversation today in reference to the above notices received on November 30, 2015,

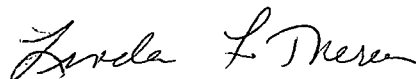

GL-21239 refers to an item manufactured by Asona Twin City S/N D716416381 that contains promethium-49 sent to Timex Corporation in 1981

GL-29420 refers to items manufactured by Asona Twin City S/N F5502838 and S/N 5602855 that contain thallium-204 sent to United States Time Corporation in 1968

As discussed, United States Time Corporation became part of Timex Corporation in 1969; Timex Corporation changed its name to Timex Group USA, Inc. in April 2008; Timex Group USA, Inc.'s corporate headquarters moved from 199 Park Road Extension to 555 Christian Road, Middlebury, Connecticut in December 2001.

Timex has no record of the devices noted in GL-21239 and GL-29420 and is no longer in possession of such devices.

Best regards,

Linda F. Therien
Corporate Paralegal
