Per routine correspondence that included References 2 through 5, FPL responded to specific NRC requests for additional information (RAI) and provided additional information to clarify aspects of the LAR submittal. References 3 through 5 are related to PSL SSA RAI 01.01.c regarding the justification for high confidence that required actions can be completed within the required time.

Following the submittal of FPL letter L-2015-273 (Reference 5), FPL and the NRC Staff discussed the revised response to PSL SSA RAI 01.01.c by conference calls on November 23, 2015, and December 2, 2015. Based on these discussions FPL agreed to retract FPL letter L-2015-273 (Reference 5) and confirm the previous version of the RAI response that was provided on September 10, 2014, by FPL letter L-2014-289.

This retraction does not impact the 10 CFR 50.92 evaluation of "No Significant Hazards Consideration" previously provided in FPL letter L-2013-099 (Reference 1). This letter makes no new commitments or changes to existing commitments.

Should you have any questions regarding this application, please contact Mr. Eric Katzman, Licensing Manager, at 772-467-7734.

I declare under penalty of perjury that the foregoing is true and correct.
