Re: Willow Creek Project – Materials License SUA-1341  
Moore Ranch Project – Materials License SUA-1596  
Jab & Antelope Project – Materials License Application (Docket No. 40-9079)  
Ludeman Project – Materials License Application (Docket No. 40-9095)  
Well Logging Equipment – Byproduct Material License 49-29384-01 (collectively, the “NRC Licenses and Applications”)

Dear Mr. Persinko and Mr. Torres:

We are writing to inform the U.S. Nuclear Regulatory Commission (“NRC”) of a change in the corporate lineage of Uranium One Inc. (“U1 Inc.”). This change is described below. The restructured corporate ownership will have no impact on the control or ownership of the NRC Licenses and Applications.

### **Background**

U1 Inc., a Canadian corporation, is the owner, through its subsidiaries, of 100% of the outstanding common shares of Uranium One USA, Inc., a Delaware corporation (“Uranium One USA”) and Uranium One Americas, Inc., a Nevada corporation (“Uranium One Americas”), the licensees and applicants under the NRC Licenses and Applications. U1 Inc., Uranium One USA and Uranium One Americas are collectively referred to herein as “Uranium One.”

Uranium One USA operates the Willow Creek Project in Johnson and Campbell Counties, Wyoming under Materials License SUA-1341, and is the applicant under a materials license application filed for the Ludeman Project (Docket No. 40-9095). Uranium One Americas operates the

Uranium One USA, Inc.  
Uranium One Americas, Inc.  
Members of the Uranium One Inc. Group of Companies  
907 N. Poplar • Suite 260  
Casper • WY 82601

Moore Ranch Project in Campbell County, Wyoming under Materials License SUA-1596 and holds Byproduct Material License 49-29384-01, which authorizes possession of hydrogen-3 in the form of sealed sources (Thermo Electron Corporation Model A-3062) for use in mineral well logging. In addition, Uranium One Americas is the applicant under a materials license application filed for the Job & Antelope Project (Docket No. 40-9079).

Uranium One has provided to the NRC earlier correspondence with respect to U1 Inc.'s corporate organization on June 1, 2015. **Attachment 1** is a chart showing U1 Inc.'s current ownership structure.

**Description of the Pending Corporate Restructuring**

State Atomic Energy Corporation "Rosatom" plans to restructure the corporate ownership chain above U1 Inc., with the result that the 43.045% interest in Uranium One Holding N.V. ("U1 Holding") currently held by JSC "AtomCapital" ("AK") will ultimately be transferred to JSC "U1 Group" ("U1 Group"). Once the transfer is complete, U1 Group's interest in U1 Holding will be approximately 67.528% and AK's interest in U1 Holding will be reduced to zero. The 32.472% interest in U1 Holding of JSC "Atomredmetzoloto" will remain unaffected.

The new corporate ownership structure that would result from the restructuring (the "Restructuring") is shown in **Attachment 2**. The Restructuring will be completed before the end of calendar year 2015. The Restructuring does not constitute a change in ownership or control under 10 C.F.R. § 30.34(b), 10 C.F.R. § 40.46 and NUREG 1556, Vol. 15, as there is no change to the beneficial ownership of the controlling interest in U1 Inc. As a result, Uranium One concludes that no additional NRC filings or approvals are required.

If you have any questions, please contact me at (307) 234-8235, ext. 335 or [greg.kruse@uranium1.com](mailto:greg.kruse@uranium1.com).

Sincerely,

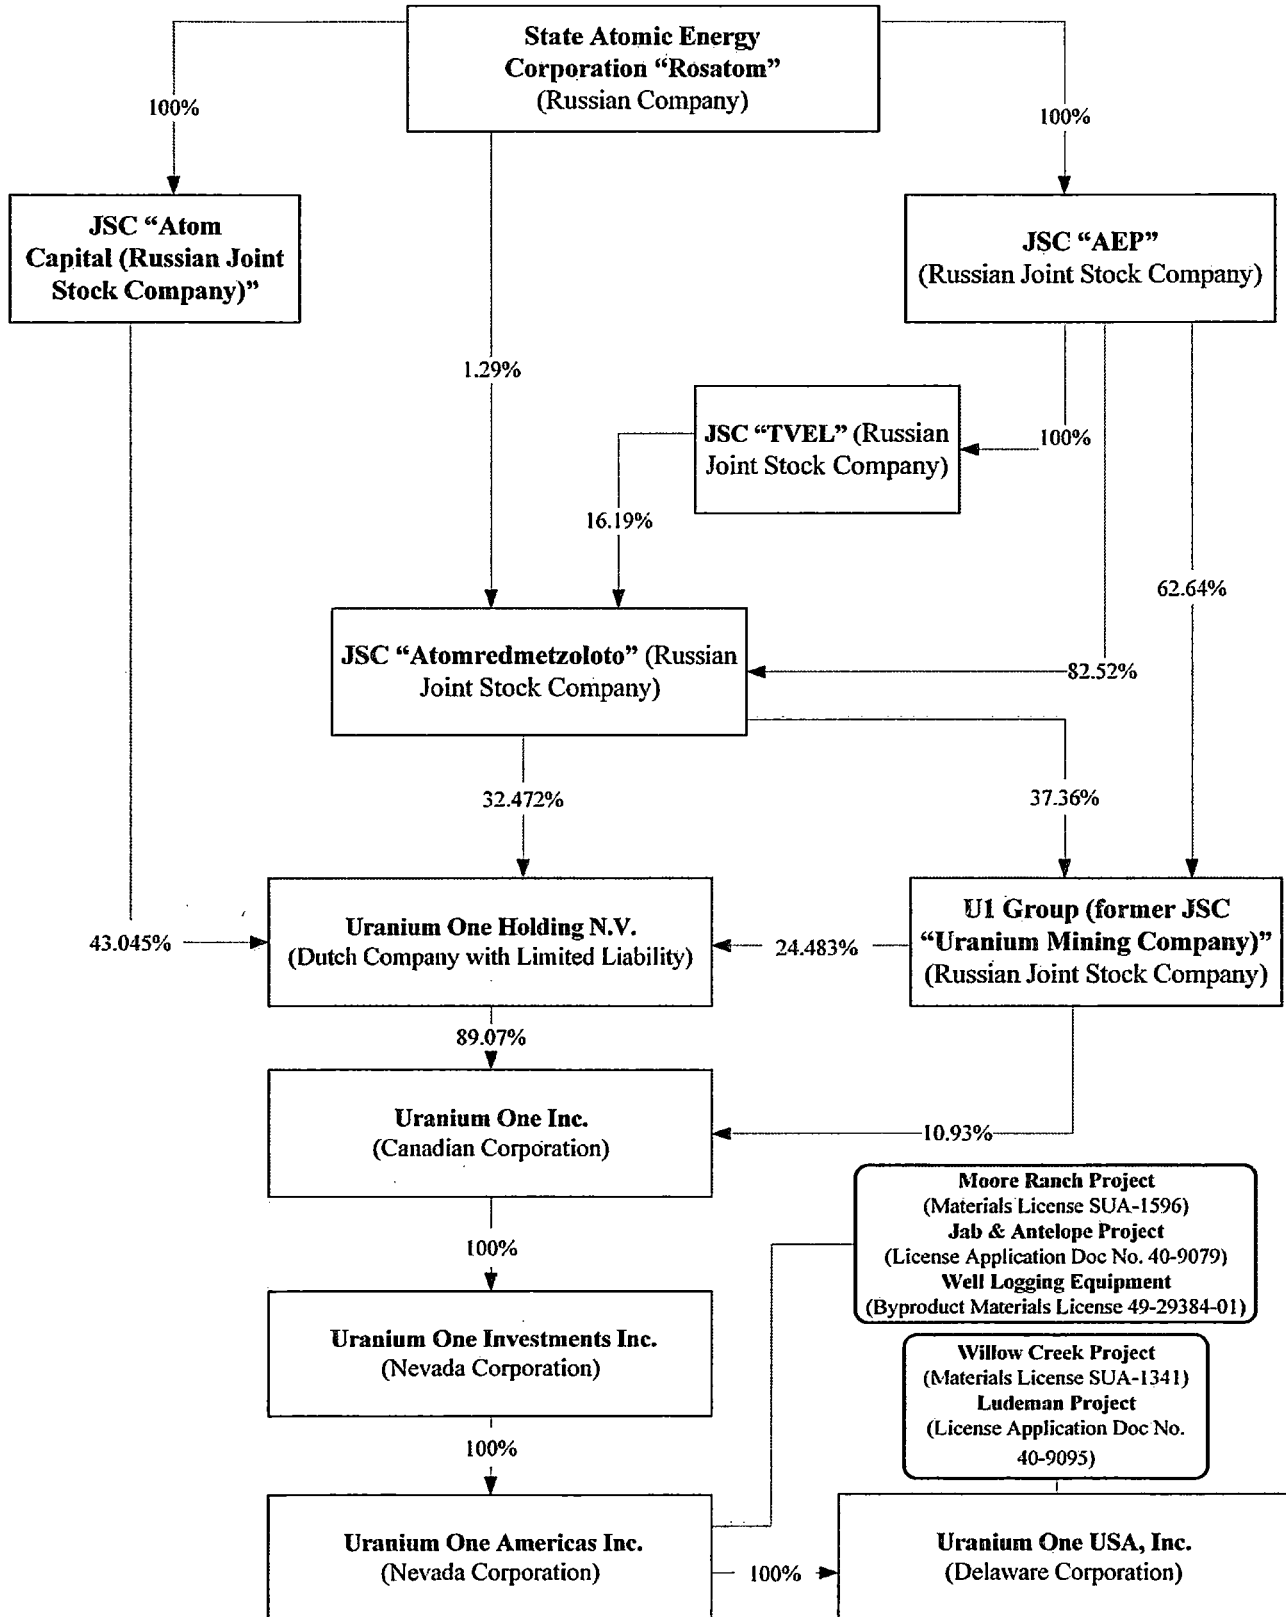

Greg Kruse  
Manager, US Operations  
Uranium One Americas, Inc.
