I shall ensure that the license activities are performed using approved procedures and meeting the regulatory requirements in the daily operations of the radiation safety program. I hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of radioactive materials by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. I am required to notify management and the State Radiation Control Department with any radiation safety issues. It is anticipated that I will be available daily via telephone, fax, or voice mail. In addition, physicist, employees, or I will evaluate quarterly radiation safety program audits and address any issues with practice management.
