SUBJECT: JOHNSON MEMORIAL HOSPITAL, LICENSE AMENDMENT, CONTROL NO.  
588935

Dear Mr. Rosenberg:

This refers to your license amendment request dated September 11, 2015. Enclosed with this letter is the amended license. The NRC has generated the license using a different format and you may note some differences in appearance of the license.

Please note that with respect to Iodine 131 (I-131) permitted by 10 CFR 35.300, authorization is limited to oral administration of sodium iodide Iodine 131 in quantities less than or equal to 33 millicuries, for this license. Therefore, Dr. Slavin, Dr. Keremeddini, Dr. Posteraro, and Dr. Zink were approved on this license for I-131 permitted by 35.300 for that use only.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

S. Rosenberg
