SUBJECT: SURRY POWER STATION – OFFICE OF INVESTIGATIONS CASE NUMBER
OI 2-2015-028

Dear Mr. Heacock:

On April 19, 2015, by the U.S. Nuclear Regulatory Commission (NRC), Office of Investigations (OI), Region II (RII), initiated an investigation to determine whether a NRC licensed (inactive) reactor operator deliberately used illegal narcotics in violation of his NRC license/Fitness for Duty (FFD) Procedures. The NRC completed the investigation and determined that Surry's FFD program was implemented properly, Surry's response was appropriate, and we have not identified any violation which will be cited against the Surry Power Station. We plan no further action towards Surry with regard to this matter.

Should you have any questions concerning this letter, please contact me at 404-997-4465.
