Dear Ms. Weidner,

Thank you for your email, which Mr. Eppehimer forwarded to me. We will send you the administrative information and proctoring documentation you need as soon as possible. I was under the impression that the SIRTex proctoring documentation for Drs. Grady and Dam had already been provided by our former RSO, but apparently I was mistaken. My apologies. Thanks for your consideration.

Mr. Eppehimer,

In the letter dated November 4, 2015 you notified us that Timothy Manzone, M.D., J.D. completed the three proctored cases for Y-90 SIRspheres. In addition, it was stated that, "This should complete the proctored case requirement for our 3 Authorized Users for this agent." I have reviewed the documentation provided by Christiana Care since Y-90 SIRspheres have been added to the license and I have not been able to locate documentation that Drs. Dam and Grady have completed the three proctored cases. Please provide confirmation from Sirtex that Drs. Dam and Grady have completed the casework, then I will be able to agree that the three authorized users have met the requirement.

Finally, I need to take care of some administrative items. Would you provide your fax number and the telephone, fax, and e-mail address of the newly appointed Radiation Safety Officer, Xiaoqian Wen?

I will continue the review of your amendment request as soon as I receive the additional information. If you have any questions, feel free to contact me via e-mail or at 610-337-5272.
