SUBJECT: SMALL ENTITY LICENSE FEE REFUND

Dear Licensee (License Fee Billing No. 15-5028):

In the preambular Statements of Consideration to the Fiscal Year (FY) 2015 Final Rule dated June 30, 2015, in the *Federal Register* (80 FR 37432), the U.S. Nuclear Regulatory Commission (NRC) said that it was revising the small entity fees for FY 2015 to \$3,400 and \$700, maximum and minimum fee, respectively. The NRC, however, did not actually implement this change in the final codified regulatory text. Accordingly, the NRC's small entity fees for FY 2015 remain the same as FY 2014, at \$2,800 and \$600, maximum and minimum fees, respectively. The NRC will, therefore, issue a refund to all small entity licensees who made payments from August 31, 2015, based on the erroneous small entity fee amounts.

Please note that typical refund processing and payment from the U.S. Treasury takes approximately four weeks. If your W9 was not previously provided to NRC, there will be a delay as we must contact you first to obtain the required information. We apologize for any inconvenience this may have caused. If you have any questions related to this matter, please contact Ms. Jawanza Gibbs-Nicholson, Office of the Chief Financial Officer, at 404-997-4886 or email her at Jawanza.Gibbs-Nicholson@nrc.gov. You may also send an email message to SmallEntity.Resource@nrc.gov or call the License Fee Billing Help Desk at 301-415-7554.

Sincerely,

/RA/

Maureen E. Wylie
Chief Financial Officer
