SUBJECT: DISBURSEMENT OF FUNDS FROM FMRI'S DECOMMISSIONING TRUST
PURSUANT TO 12-MONTH FORBEARANCE AGREEMENT

Dear Ms. Amstutz:

The U.S. Nuclear Regulatory Commission (NRC), the U.S. Department of Justice (DOJ), and the Oklahoma Department of Environmental Quality (ODEQ) have entered into a 12-Month Forbearance Agreement with Fansteel and FMRI. A specific condition of that Agreement, Condition 5.G, commits the NRC to utilizing funds from the Decommissioning Trust to pay for the shipment and disposal costs for the Work In Progress (WIP) material that was bagged prior to June 1, 2015.

Condition 5.G states the following (Trust-related sections highlighted):

All WIP material stored in buildings on the Muskogee site as of June 1, 2015, shall be shipped to White Mesa with shipments to be completed by February 29, 2016. As of June 1, 2015, this is estimated to be in the amount of approximately 1,000 bags or 1,500 tons. The transportation and disposal costs associated with the disposition of this material will be allocated from the Decommissioning Trust to the approximate amount of \$628,000 ("the Trust Funds"). Payments will be made upon a showing to the NRC's reasonable satisfaction that FMRI has fully complied with shipping requirements of past Forbearance Agreements. If FMRI is unable to do so, the amount available from the Decommissioning Trust Fund shall be reduced by the tonnage of the arrearage times, the per ton transportation, and disposal cost. If circumstances beyond FMRI's control require adjustment of the February 29, 2016, completion date, FMRI shall notify DOJ, NRC, and ODEQ in writing of such circumstances prior to the completion date. On or before February 29, 2016, FMRI shall begin shipment of the WIP material that will have been excavated after June 1, 2015 (the "Newly Excavated WIP Material"). Between February and July 2016, FMRI shall ship the Newly Excavated WIP Material at the rate specified in the 5.C Work Plans, making at least three shipments of 11 intermodals each. On or before February 29, 2016, and for each shipment thereafter, FMRI shall deposit \$91,300 in the Decommissioning Trust to provide for the expense of transporting and disposing one shipment of 11 intermodals. The NRC shall make these funds available for payment of shipping and disposal costs when shipment and disposal have been completed. If, for any of these shipments and disposals, the \$91,300 amount is insufficient to cover the actual cost due to variations in shipment and disposal

weight, it will be the responsibility of FMRI to pay the difference. If the \$91,300 proves to be in excess of the actual costs due to variations in shipment and disposal weights, then the excess may be refunded to FMRI or utilized to offset future deficiencies. If the 5.C Work Plans require FMRI to lease additional intermodals, additional funding from the Trust Fund will be provided at the rate of \$550 per intermodal.

In order for the funds to be released from the Decommissioning Trust, FMRI is to provide the NRC the following information:

persons as specified by the NRC from the Fund for expenditures for required activities in such amounts as the NRC shall direct in writing.
