Re: Oconee Nuclear Station  
Unit 2  
Docket No. 50-270  
Provisional Construction Permit No. CPPR-34  
Application for Renewal of Construction Permit

Dear Mr. Giambusso:

We hereby apply for an extension of time for the completion of Oconee Nuclear Station Unit 2 as covered by Provisional Construction Permit No. CPPR-34.

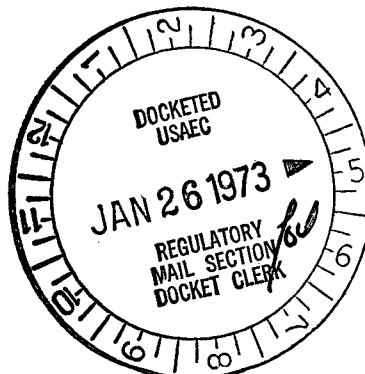

The original construction permit called for completion of the facility by February 28, 1972. This date was extended to February 28, 1973 by your order dated March 1, 1972. As mentioned in our letter of January 25, 1972, delays have been caused by late delivery of major reactor coolant components and diversion of construction forces from Unit 2 to Unit 1 in solving problems occasioned by the lateness of that unit. In addition to these delays, modifications to the Unit 2 reactor vessel internals have extended the anticipated construction completion date. We now expect that the facility will be ready for fuel loading about August 1, 1973.

We hereby request that the latest completion date specified in Construction Permit No. CPPR-34 be extended from February 28, 1973 to September 1, 1973 to provide a suitable margin.

Very truly yours,

A handwritten signature in cursive script that reads "A. C. Thies".

A. C. Thies
