Corrected Edition:

Dear James Danna, Elaine Keegan, Carol Gallagher,

Subject: Fermi 2 License Renewal Application Draft Supplemental Environmental Impact Statement - Docket ID [NRC-2014-0109](#)

Additional Comments by Don't Waste Michigan

Don't Waste Michigan stands in opposition to the ongoing generation of High Level Nuclear Waste at the Fermi 2.
Don't Waste Michigan goes on record in opposition to License Renewal of Fermi 2 which would entail the generation of additional High Level Nuclear Waste for twenty years. Stop making it!

The product is poison on multiple dimensions.

Don't Waste Michigan acknowledges, accepts, and adopts as our own the Comments **my** by CRAFT and by Alliance to Halt Fermi 3.

These Comments are attached for your convenience. In addition Don't Waste Michigan **acknowledges, accepts, and adopts as our own the** Comments made by Vic Macks, which will soon be in ADAMS speaking to the moral bankruptcy of nuclear power. We adopt these as our own.

Respectfully Submitted,

Michael J. Keegan
