Re: Amendment NRC License No. 21-00258-06  
Allegiance Health

ATTN: To Whom It May Concern:

This letter is to notify the Nuclear Regulatory Commission that on November 9, 2015, W.A. Foote Memorial Hospital d/b/a Allegiance Health ("AH", or "Hospital") and Henry Ford Health System ("HFHS") executed a Letter of Intent in which the Parties agreed to (if negotiations are successful), enter into an Agreement pursuant to which HFHS shall become the sole "member" (i.e., the corporate parent) of Allegiance Health Services, the sole member of Allegiance Health. As a result of this transaction, the legal structure of AH (the license holder) will not change and the entity will continue to exist and conduct business on a "go forward" basis. The governing board of the Hospital will remain intact, with the addition of two members appointed by HFHS, constituting a minority interest. That governing board will continue to govern and control the operation of the Hospital.

Our original estimate regarding when this transaction will be completed is on or around April 1, 2016, and although the transaction is not yet completed, we are notifying the NRC now in order to minimize as much as possible any disruption to continuity of care for patients utilizing Allegiance Health's services.

We will provide updates to NRC from time to time, when addition information is available concerning the status of negotiations and updates regarding the final closing date(s) for this transaction.

For additional information, please do not hesitate to contact Robyn McDermaid, Director of Imaging Services, at (517) 788-4800/Ext. 1498.

Sincerely,

ALLEGIANCE HEALTH

Robyn D. McDermaid  
Director, Imaging Services
