**Re: Request to NRC to Review the 2015-2016 Surety Estimate for the Lost Creek Project
Pursuant to License Condition 9.5
NRC License Number SUA-1598, Docket 40-9068**

To Whom It May Concern,

On October 21, 2015, Lost Creek ISR (LCI) submitted the 2015-16 surety estimate with an annual report to the U.S. Nuclear Regulatory Commission (NRC) Project Manager for review and approval. Subsequent to that submission, the Wyoming Department of Environmental Quality – Land Quality Division (WDEQ-LQD), who also has authority to review and approve the surety estimate, issued two requests for further information regarding the surety calculation (letters dated November 9 and December 11, 2015). LCI responded to WDEQ-LQD's comments on December 7 and 16 respectively. LCI listed the NRC as a primary addressee in both responses.

With this letter, LCI is formally requesting that the NRC review the revised surety estimate provided to them by a letter dated December 7, 2015, pursuant to license condition 9.5. The December 7, 2015 letter included the most up to date surety estimate with a reclamation cost of \$14,996,900.

If you have any questions regarding this letter or require additional information please feel free to contact me at (307) 265-2373.

Sincerely,

John W. Cash, Vice President
