COMMISSION Mail Section

WILLIAM O. PARKER, JR. VICE PRESIDENT STEAM PRODUCTION

February 5, 1976

Mr. Benard C. Rusche Director of Nuclear Reactor Regulation U. S. Nuclear Regulatory Commission Washington, D. C. 20555

Re: Oconee Nuclear Station Docket Nos. 50-269, -270, -287

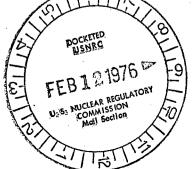

Dear Mr. Rusche:

Facility Operating Licenses DPR-38, -47 and -55 authorize the operation of Oconee Nuclear Station, Units 1,2 and 3 respectively. In each of these licenses, Condition 2E states:

"Pursuant to the Act and 10 CFR Parts 30 and 70, to possess, but not separate, such byproducts and special nuclear materials as may be produced by the operation of the facility."

The term "facility" as described in the license is the applicable unit and associated equipment. This wording of the license creates a condition which prohibits transfer of byproducts and special nuclear material from one of the Oconee units to the other. It is considered that this wording was unintentional at the time of issuance of the Facility Operating Licenses since justification does not exist to segregate the byproduct and special nuclear material produced from the operation of one Oconee unit from that produced from the other essentially identical units. One example of NRC approval of transfer of material between units was the safety evaluation supporting the issuance of Amendments 17, 17 and 14 to Facility Operating Licenses DPR-38, -47 and -55 respectively. This amendment indicated that spent fuel from Oconee Units 1 and 2 would be transferred to the Oconee Unit 3 spent fuel pool which is being modified for increased fuel storage.

Therefore, pursuant to the provisions of 10 CFR 50 § 50.90, the following change is requested to Condition 2E of the Facility Operating Licenses DPR-38. -47 and -55:

1417

Mr. Benard C. Rusche February 5, 1976 Page 2

> "Pursuant to the Act and 10 CFR Parts 30 and 70, to possess, but not separate, such byproduct and special nuclear materials as may be produced by the operation of the Oconee Nuclear Station, Units 1, 2 and 3."

It is requested that approval of this amendment to the Oconee Facility Operating Licenses be approved by April 1, 1976 in order to facilitate the handling of components during the Oconee Unit 2 refueling.

Verx truly yours, D. Tan e. William O. Parker, Jr. C

WOP:mmb

Mr. Benard C. Rusche February 5, 1976 Page 3

W. O. PARKER, JR., being duly sworn, states that he is Vice President of Duke Power Company; that he is authorized on the part of said Company to sign and file with the Nuclear Regulatory Commission this request for amendment of the Oconee Nuclear Station Facility Operating Licenses DPR-38 DPR-47 and DPR-55; and that all statements and matters set forth therein are true and conrect to the best of his knowledge.

U. Tark 0. Parker, Jr., Vice President

ATTEST: John C. Goodman, Jr. Assistant Secretary

Subscribed and sworn to before me this 5th day of February 1976.

Notary Public

My Commission Expires:

October 24 1977
