Subject: Additional Information for Renewal Application

Discussion: I contacted Mr. Simpson to request the following information:

1. In his response to our request for additional information he referenced Goddard Specification S176-P2 dated August 19, 1965 and Gamma Process Drawings P-66002-3 and P-66002-4 for the Model MK-1 irradiator. I looked for these documents in the docket file and was unable to locate them so requested that he submit them if he had copies. He said he had a copy of the specification and will try to locate the drawings.
2. I requested that he submit a procedure for response to a leaking source. He had previously submitted a procedure for response to a radiation leak instead of a leaking source.
3. We discussed his financial assurance submission. I explained that the Statement of Intent needs to be dated if he wants it to be updated and that the current one on file remains valid. He agreed that it was fine to leave the current one in place rather than to re-submit a new one.

Action Required: Process renewal once the information is received.
