Subject: [External_Sender] NRC letter of 11/19/15 to me

Mr. Richard Barkley
Nuclear Regulatory Commission
Office of Public Affairs

That letter (attached) which is now public could get me killed. Mr. Barkley, I made you well aware I have had several threats on my life and a car burned on my farm which is also on record with the Secret Service at the White House.

Mr. Barkley you are well aware I informed quite a while ago to have any letters which the NRC sends me, to make sure this address on it: Stephen B. Comley Sr., Founder of We The People a National Whistleblower Non-Profit Organization, Box 646, Rowley MA. 01969.

I also sent that address to Mr. Burnell in a e-mail (will send in next e-mail) so there is no reason why Mr. Fred Bower III, Chief, Reactor Projects Branch 3, Division of Reactor Projects sent this 11/19/15 to the address on the letter which is now I stress is public.

I want a full investigation and letter of how this happened.

In addition in the questions I posed for Chairman Stephen Burns to address it is very evident Mr. Burns chose not to address many of them. If you compare the questions I sent in the e-mail to Mr. Burnell, it would be very easy for you to pick out the ones that were not addressed in the NRC letter to me of 11/19/15. If you need further clarification please contact me.

Lastly for the record I am attaching the recent letter of 10/22/15 I wrote to Former NRC IG, David Williams

Thank you

Stephen B. Comley Sr.
Founder of We The People a National whistleblower Non-Profit Organization
