Licensing Branch

**RE: Stella-Jones Corporation, Spencer Division
Disposal of ASOMA Model 200**

Dear Mr. Luccioni,

Stella-Jones Corporation (SJC) Spencer Division has disposed of its ASOMA Model 200, serial number 4812. The Texas office of Ametek received and took possession of the aforementioned analyzer April 1, 2015. Ametek's radioactive license number is L06291. Ametek disposed of the analyzer using practices accepted by the State of Texas. Please find attached documentation of disposal provided by Ametek.

Should you have any questions, please do not hesitate to contact me at (412) 894-2869 or at abattisti@stella-jones.com.

Sincerely,

A handwritten signature in cursive script, appearing to read "A. Battisti".

Re: Disposal of Asoma Model 200

Dear Ms. Battisti

This is to inform you that the Texas office of Ametek has received and taken possession of your ASOMA Model 200, serial number 4812, containing the following sources:

Date of Return	General Licensee	Model	Serial Number	Radioactive Material		
				Type	Quantity	Serial Number
1 April 2015		200	4812	Am-241	30 µCi	N/A
				Cm-244	30 mCi	1573LM

Our radioactive material license number is L06291.

We have disposed of the analyzer using practices accepted by the State of Texas.

If you have any questions, please contact me at extension 214 or email vicki.luckie@ametek.com

Sincerely,

Vicki Luckie
