FROM:

Andrew Mayock
Senior Advisor to the OMB Director
Office of Management and Budget

SUBJECT: FITARA Implementation Status

Dear Mr. Satorius,

On October 9th, 2015, the Office of Management and Budget (OMB) sent a memorandum to you providing feedback on the draft FITARA Implementation Plan your agency previously submitted. This memo outlined aspects of your draft plan requiring attention prior to approval. Since that date, your agency revised its original plan, and we are pleased with the progress we have observed in adherence to M-15-14's Common Baseline. The purpose of this letter is to inform you of the approval of your revised FITARA Implementation Plan.

Congratulations on meeting this significant milestone and please note that Nuclear Regulatory Commission (NRC) is required to publicly post its FITARA Implementation Plan within 30 days of your plan's approval.

Your leadership in driving the implementation of this important legislation has been critical. By prioritizing actions related to the implementation of FITARA across your organization, including

its components, you are ensuring your CIO has the tools and authorities necessary to improve the formulation and execution of IT investments at NRC.

As a reminder, the first annual update to your agency's Common Baseline Self-Assessment is due on April 30, 2016. This update should identify any obstacles or incomplete implementation of the Common Baseline responsibilities. OFCIO looks forward to reviewing these updates and seeing your continued progress and achievements on these transformational reforms. In the nearer term, OFCIO will continue to work with your agency leadership through our quarterly PortfolioStat sessions to ensure smooth execution of your approved plan.

I appreciate your prompt and continued attention to these important items. If you have any questions, please contact Tony Scott, Federal Chief Information Officer, or myself.

Sincerely,

Andrew Mayock
Senior Advisor to the Director
Office of Management and Budget
