

This page provides an abstract, justification, and target dates for a potential rule that the U.S. Nuclear Regulatory Commission (NRC) has prioritized in its Common Prioritization of Rulemaking listing.

Please visit the [Rulemaking Priorities](#) page on the NRC's public Web site for additional information about this page and to view the entire Common Prioritization of Rulemaking listing.

Cyber Security for Byproduct Material Licensees (Rev. 2)				
Abstract				
The Nuclear Regulatory Commission plans to gather information and conduct a consequence analysis to obtain preliminary information that will be used to determine whether the Nuclear Regulatory Commission should proceed with rulemaking. Staff has established a working group to coordinate and perform these preliminary activities.				
Justification				
The rule scores 18 points (10, 5, 1, 2) because of the following reasons: A) Moderate contributor toward one goal and implements one goal strategy (security strategy 6); B) Moderate contributor toward one strategy (regulatory effectiveness strategy 2); C) Less substantial or indirect contributor toward one or more considerations and the Commission has provided no specific direction and priority/schedule on the rulemaking. Indirect contributor to closing a regulatory gap in cyber security for byproduct material licensees. The Commission has provided no specific direction or schedule for the rule; and D) Moderate contributor toward one or more considerations. Significant interest of the Department of Homeland Security.
